On Halloween, we had a pumpkin carving contest. That night, Rick told me that he and Hershel had stocked all the pumpkins from the contest on the roof. He said they were going to video one each day being thrown off the roof at someone taking a break down below and "scare the shit out of them."

He showed me their first toss. It looked successful but I was really annoyed.

Rick and Hershel are both spread so thin on time. They don't have any extra to calculate who is taking a break and when they can sneak onto the roof to throw a pumpkin over.

Right as I started to say something to that effect, I remembered who keeps this place fun.

Hugs and rules,

Megan, 12/13
